

TECHNICAL ENGINEERING SUPPORT APPLICATION NOTICE (TESAN)

Subject: PS-12/24-8 PowerPath

Output capabilities of the PowerPath

The PS-12/24-8 PowerPath can have the following output combinations:

1 to 4, 2A, Class "B" circuits

1 or 2, 2A, Class "B" circuits and 1, 2A, Class "A" circuit.

1 or 2, 2A, Class "A" circuits.

The PS-12/24-8 PowerPath has not been tested and therefore is not UL Listed for a 4A, Class "A" circuit. Therefore it does not have this capability.

As a reminder, the PS-12/24-8 can provide a constant output current of 6 amps with a capability of 8 amps for 15 minutes.
